INTRODUCTION

Laparoscopic Surgery has made great leaps and bounds in recent years that it will soon be the mainstay of gynae surgeries and replace many gynae surgeries performed now.

Therefore with this in mind, we embark on conducting this course to teach our junior members in this profession and young trainees on the proper method of performing Laparoscopic surgeries with propriety, efficiency and safety and thus making them better surgeons.

This said I hope to see you all in Hospital Sultan Abdul Halim having a great time seeking experience and knowledge.
