CPD POINTS will be AWARDED

will be awarded CPD points
Dear Colleagues,

I warmly welcome you to the “2nd Malaysian Obstetric Medicine (MOM) Scientific Congress 2020”, a course dedicated to Obstetric Medicine.

Following the overwhelming success of our very 1st MOMS Congress in 2018, this is our second endeavour with the same core objectives and zest; which is to disseminate awareness and to improve the quality care of patients with complex medical disorders in pregnancy.

Medical disorders in pregnancy remains a significant cause of maternal deaths in Malaysia and in many developed countries. A multidisciplinary team of experts, evidence based approach, leadership and quality of care are the essentials in management of such patients.

With a renowned international faculty of experts and distinguished expert clinicians throughout the nation, we have designed an up-to-date scientific programme based on the best available evidence. An interactive programme immersed with lectures, quizzes, grand rounds, case discussions and presentations; with plenty of opportunities to stump the experts awaits you as we promise an enriching holistic experience for one and all.

I warmly invite you to join us for a three day scientific symphony of medical disorders in pregnancy, themed “Bridging Obstetrics & Medicine”. I look forward to seeing you at the “MOMS Congress 2020”.
