

OGSM MEDICOLEGAL WEBINAR SERIES

LEGAL IMPLICATIONS OF COVID-19

Saturday 20th June 2020; 1400hrs – 1730hrs

Medicolegal matters are becoming increasingly important in the practice of modern medicine; especially in modern obstetrics. Doctors need to at least have a basic understanding of the laws that govern us to enable us to practice medicine, safely and effectively not defensively.

Our inaugural medicolegal webinar, “The Legal Implications Of Covid-19” was chosen as a reflection of the uncertainties we face as we continue to provide care to women during the pandemic. This webinar has been designed to help the medical practitioner as the new normal brings about new changes to the way medicine is practiced.
